Speakers' Profiles

Mathieu Lamolle

Mathieu Lamolle has more than 10 years of experience in international trade, market access and sustainable development. He holds a Master's degree in International Economics and Management from the Solvay Brussels School of Economics and Management (SBS) and speaks English, French and Spanish.

Mathieu is leading the development of the Standards Map global database of sustainability standards, codes of conduct and audit protocols at the International Trade Centre (ITC). He coordinates the partnerships with the standards organizations and the related benchmarking activities leveraging the Standards Map global database and web-platform (www.standardsmap.org). He regularly provides technical assistance and training to companies on methodologies to develop successful sustainable sourcing strategies, integrate sustainability in their supply chains and meet international market requirements.

Prabha Nagarajan

Prabha Nagarajan has bachelors degrees in sociology and law and a masters degree in business management (BA BL, MBA). She has held senior positions in the public and private sector in India and has been actively involved in the sustainable textiles industry for the last 14 years. She is the regional director, India of Textile Exchange, a global non profit organisation working towards textile sustainability since March 2006 to date. She has played an integral role in the organic cotton industry in India. Prabha has worked closely with policy and advocacy issues relating to organic cotton and has been a member of the Organic Cotton Advisory Board, a member of the sub committee for the organic cotton for the 12th plan convened by the ministry of Textiles, as well as on the original committee for ISOT convened by the Ministry of Commerce. Currently, she is also the director of the Organic and Fair Trade Cotton Secretariat (OFCS), a stakeholder body of India that has been facilitated by the C&A Foundation.

A COMPANY GROWING ORGANIC COTTON IN FARMER CO-OPERATIVE FORM. SRC IS PRODUCING CONTAMINATION CONTROLLED FIBRE, YARN, FABRIC, PROMOTIONAL BAGS AND HOME FURNISHING ITEMS.

Our key personnel, Mr B.R.Kathalkar has been awarded KRISHI BHUSHAN by Govt. of Maharashtra towards his contribution in the field of Agriculture.

In an endeavour to the contribution for a greener society, SRC has initiated a programme to plant 25000 trees in barren land owned by gram sabhas over 35 villages in the state of Maharashtra in 2015 with a total target of 1 million trees in the next 10 years.

Siddhartha Rajagopal

Siddhartha Rajagopal currently the Executive Director at The Cotton Textiles Export Promotion Council, has vast experience of over three decades in matters relating to international trade in textile and clothing. Having acquired a Master's Degree in Political Science with specialization in international economic relations, he joined the TEXPROCIL in 1992 after serving the Apparel Export Promotion Council for 8 years. He has thus had the unique distinction of serving the entire gamut of the textile value chain from yarns to garments. During the course of his career in the textile and clothing sector, he has been a member of several Indian delegations/negotiating groups sent by the Government of India to USA, European Union, and the WTO to discuss various aspects of bilateral and multilateral trade in the textile and clothing sector under the MFA and ATC regimes. He has also been actively defending the interests of Indian textile exporters against trade defense measures like Anti-Dumping and Anti Subsidy actions at the WTO.

Rajagopal has also been instrumental in conceiving export promotion schemes and market development strategies for the garment and textile sector and has organized India's participation in several textile exhibitions/fairs and trade delegations. He has had the opportunity to travel extensively the world over promoting the exports of cotton textiles.

Ullhas Nimkar

Ullhas Nimkar is the Chairman and Managing Director of NimkarTek Technical Services Pvt. Ltd. Nimkar is a Chartered Colourist & Fellow of The Society of Dyers & Colourists UK and the erstwhile founder of Texanlab Laboratories Pvt. Ltd., India's premier Textile Testing Laboratory providing advanced performance testing and analysis of Restricted Substances (RSL) in Apparel, Textiles, Dyes & Chemicals.

He was the first Vice President (India) of the Society of Dyers and Colourists, Bradford, UK, a Silver Medallist and is currently the Chairman of the India region of the Society and a member of The Trustee Board in the UK. An Honorary Fellow (FTA) of Textile Association of India, he has been a member of the ASTM & AATCC, (professional bodies in the USA); He has been a Managing Committee Member of the TAI and a member of the Governing Council of The BTRA; A Hon. Technical Advisor to the Confederation of Indian Apparel Exporters (CIAe); member of the Board of Studies of SVT College of Home Science (Autonomous), SNDT Women's University.

Nimkar lectures extensively on Ecological issues in Textiles and Sustainability. He was invited to present a paper at ITMA 2011 in Barcelona; special expert invitee to the Workshop "International Ecological Textile Tracing Conference", Istanbul, Turkey; Presented a paper at the 75th annual conference of the German Colorfastness Committee (DEK) and has participated at the CDG International Workshop on "Environmentally Oriented Textiles Industries" held at Berlin in 1998.

DOES YOUR PRODUCT MEET THE INTERNATIONAL QUALITY AND ECOLOGICAL PARAMETERS AS PER GOTS VERSION 4.0?

Over three decades, Texanlab has been a pioneer in offering Testing Services to the Textile & Leather Footwear Industry (Garments, Fabrics, Yarn, Home Textiles, Leather & Footwear and Textile Auxiliaries) for major International Standards in Europe, America, Asia and Middle East. Texanlab offers all its customers the highest standards of excellence, reliability and world class customer services. Quality, Safety & Integrity are at the core of our business.

With our laboratories coverage across India's key Textile hubs (Gurgaon, Mumbai, Tirupur & Salem) and with motivated, well qualified and highly technical staff; we have the capability to test around 500+ sample per day, racing against time to deliver consistent, reliable and accurate results to our customers. We provide timely, accurate and reliable analysis which guarantees customer satisfaction.

"Texanlab is a clear market leader in testing services with complete in house testing capabilities and can test all parameters like APEO's, Heavy Metals, Amines, Phthalates, Bio-degradability, AOX, Toxicity, Formaldehyde, SCCP, Phenols, Organotins, PFOA & PFOS etc.

Speakers' Profiles

Ehsanul Karim Kaiser

Ehsanul Karim Kaiser has been working in one of the leading conglomerate Esquire Group's textile division (EKCL), Bangladesh, for last twenty three years since inception of the textile business.

He is currently holding the position of Executive Director of the textile division of the group. He led the building of the company from its early days to today's capacity. Yarn dyeing unit having annual production capacity of 2400 tons, Knit and fabric dye facilities of 5700 tons, a modern garment piece printing unit having sublimation and digital printing production facilities of 1.3 million Dzn. Garment washing unit (130,000 Dzn), an embroidery unit, a garment accessories unit and a garment manufacturing unit that produces annually around 1.80 million Dzn of high quality sophisticated medium to high-end knit items for leading global brands. Mr. Kaiser has led the implementation of first Organic Exchange and first Oeko-tex 100 certification in the knit sector of Bangladesh in his factory.

Kaiser passed out from College of Textile Technology (now Bangladesh University of Textiles) in 1984 (session 1982) who has eventually become one of the few veteran textile professionals that Bangladesh have at the moment. He successfully implemented many innovative technologies and processes for improved, cost effective and environment friendly production. One of them which can be mentioned here is current joint project with the university of Dhaka for using nanotechnology in textile finishing, smart textiles and also in effluent treatment. He is the former Secretary General of The Institution of Textile Engineers and Technologists of Bangladesh (ITET).

Narayanasamy Arunachalam

B.Tech Textile Technology Passed 1978.

36 years experience in ring spinning and open end spinning (Cotton, Polyester)

11 years experience working with organic and Fairtrade cotton, comprehensive knowledge of associated traceability, auditing and certification through vertical supply chain.

Speaker's engagement on Fairtrade cotton in various conferences.

Advisory member :

- Advisory Council of CUC (India)
- Product Advisory Council (PAC) of Fairtrade Cotton

INTERESTED IN...

- > Organic silk?
- > Non-violent and sustainable silk yarns, textiles or garments?
- > trendy or elegant fashion collections in harmony with nature and humanity?

COCCCON, creativity can care is a social project based in Jharkhand, India. It was started in 2012 to create an economic perspective for the rural Poor.

COCCCON is now a leading manufacturer of GOTS certified organic silk products. We would be pleased to assist you through all stages of the procurement process from selecting silk yarns to the final product. Our team of young designers and production experts will help you realize your dream of making a sustainable collection without losing glamour of Mainstream Fashion.

We are specialized in organic & nonviolent pure silk textiles (woven and knits), blended organic silk textile with organic cotton, organic wool and linen, garment manufacturing, lingerie, scarves and home furnishing.

Amit Shah

As the Founding Director & CEO of Spectrum International Pvt. Ltd., Amit has a rich experience of almost two decades in managing the textile vertical right from farming to garmenting.

With a degree in Business Management (Marketing) from the US, Amit came to India in 1998 and joined the family spinning business.

With a passion of setting up a unique model that created value for everyone from farmers to consumers, he incorporated Spectrum International, a company which back in 1998 was one of the first in India to foray into Organic Cotton working with marginal farmers.

Today almost after 17 years the company works with thousands of cotton farmers in three states of Gujarat, Maharashtra and Odisha growing organic cotton and food.

Amit has previously served on the Organic Cotton Advisory Board. Spectrum International has been a proud member of GOTS for over eight years.
